

AARADHYA SHEKDAR

B.Tech CSE Student | Data Analysis & ML | Python & Web Development
Pune, India | +91-9755171065 | aaradhy.shek@gmail.com
[GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFILE SUMMARY

Computer Science undergraduate with hands-on experience across four internships in data analysis, machine learning, web development, and Python development. Skilled at turning raw data into actionable insights and shipping end-to-end applications using Python, SQL, and modern web/ML tooling.

INTERSHIP EXPERIENCE

Data Analysis Intern | Thiranex

May 2026

- Performed Exploratory Data Analysis (EDA) using statistical methods and visualizations to uncover trends, patterns, and correlations.
- Built and validated supervised machine learning models, and created dashboards/reports using Pandas, Matplotlib, and Seaborn to support data-driven decisions.

Web Development Intern | InAmigos Foundation

May 2026

- Built and deployed a personal portfolio website, and audited the foundation's website to identify usability and UI/UX improvements.
- Designed feature proposals for NGO websites, including donation systems, volunteer registration, and impact showcase sections.

Machine Learning Intern | Suvidha Foundation

Till July 1, 2026 (Current)

- Working on applied machine learning tasks including model development, feature engineering, and performance evaluation.
- Collaborating on data-driven solutions to support the foundation's analytical and decision-making needs.

Python Development Intern | Qskill

Till July 1, 2026 (Current)

- Developing and maintaining Python-based scripts and applications as part of ongoing development tasks.
- Contributing to feature implementation, debugging, and code optimization in a collaborative team environment.

PROJECTS

UIDAI Campaign Predictor

Dec 2025 - Jan 2026

github.com/Aaradhya1998/uidai-campaign-predictor

- Built an ML pipeline to predict awareness campaign effectiveness for UIDAI services using Aadhaar age demographics, covering preprocessing, feature engineering, and predictive modeling.

AutoStream Agent

Feb 2026 - Mar 2026

github.com/Aaradhya1998/AutoStream-Agent

- Built an AI-powered automation platform combining LLMs, Retrieval-Augmented Generation (RAG), and API integrations to automate content generation and repetitive workflows.

CivicSolve

Mar 2026 - Apr 2026

github.com/Aaradhya1998/CivicSolve

- Developed a full-stack civic issue-reporting app with real-time status tracking, AI-assisted drafting, multilingual UI, live map updates, and OTP-secured authentication.

University Complaint Management System

Apr 2026 - May 2026

github.com/Aaradhya1998/university-complaint-system

- Built a full-stack platform for students to log complaints and for admins to track/resolve them, with authentication, CRUD operations, and status tracking.

Gemini Chatbot Assistant

2026

github.com/Aaradhya1998/Gemini-Chatbot-Assistant

- Built a conversational assistant powered by the Google Gemini API, integrating prompt design and API handling for context-aware responses.

SKILLS

Languages: Python, SQL, HTML, CSS

Data Science & ML: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, EDA, Predictive Modeling

Web Development: Flask, REST APIs, SQLite, PostgreSQL

AI Tools: Google Gemini API, RAG, Prompt Engineering

Other: Git/GitHub, Process Analysis, Product Support, Communication

EDUCATION

B.Tech, Computer Science & Engineering

CGPA: 8.7 (1st Semester)

Jayawant Shikshan Prasarak Mandal (JSPM), Pune

Class XII, CBSE

62.8% | 2024

Class X, CISCE (ICSE)

87% | 2022
